

"There is no way in the world we can forge a sustainable society without stabilizing the population."

— Gaylord Nelson (1916-2005)
Founder of Earth Day

“ Things have gotten messy.
Any idea how to clean things
up around here?

— Mother Earth

Mankind has made a bit of a mess on Earth. What are your thoughts for how to clean up the planet and create a sustainable world for humans, all nonhuman life and all biodiversity on Earth?

[Share Your Wish](#)

"It's the most important issue on the earth – movements of people and growing numbers of people."

– Martin Litton (1917-2014)
Former Director, Sierra Club

What Is Our Carbon Footprint?

The metric tons (Mt) of CO₂ emitted by our consumption of fossil fuels

About Us

Our aim is to educate, inform and inspire individuals to consider the impact of their decisions on the environment. Practicing good Earth stewardship today, and lowering our carbon footprint, will help ensure a future in which humans, animals and other biodiversity can thrive.
